ABOUT ME

I study Web, Mobile and Cloud Computing and enjoy building web apps people can use. Leading Infoweb and working in hospitality have taught me to communicate clearly and stay calm under pressure. I'm ambitious and always look for opportunities to learn and broaden my horizons.

PROJECTS

Personal Portfolio
React, TypeScript, Tailwind CSS | In development
Developing a responsive portfolio for mobile and desktop with Hero, About, Projects, Skills and Contact components.

FinTrack
React, JavaScript, HTML, CSS, Node.js, Express, PostgreSQL
Collaborating on an expense tracker with filters, monthly summaries and automated checks through GitHub Actions.

Aromatic Herbs Cultivation Management
JavaScript, Node.js, Express, MongoDB
Built a web interface and REST API for managing herb cultivation, with JWT authentication and role-based access.

Sistema Numerico
Python, Flask, HTML, CSS
Built a web app for number-base conversions, binary and hexadecimal arithmetic, and Gray code generation.

Weekly Task Manager
JavaScript, Node.js, Express, MongoDB
Built a web interface and REST API to organise tasks by weekday and mark them as complete.

LEADERSHIP AND EXPERIENCE
